## GLOVE TERMINOLOGY

**Cabretta:** A thin, fine leather made from Brazilian hair sheep.

**Cape or Capeskin:** A superior thin leather made from South African hair sheep.

**Clute Cut:** A glove style with a one piece palm with no seam at the base of the finger. The seams are along the fingers on the inside.

**Cuff:** The cuff is the part of the glove extending beyond the palm that covers the wrist and part of the forearm.

**Fourchette:** The piece of leather sewn between the fingers on some kinds of gloves. Also known as the sidewall or gusset.

**Gauntlet:** A very long cuff to protect the forearm.

**Grain:** The side of the leather that had the hair, i.e the outside. Full Grain has the original surface, whereas corrected grain has been abraded to make the leather smoother and more uniform.

**Gunn Cut:** A glove style with seams at the base of the fingers. The seams between the fingers are on the back of the glove.

**Gusset:** The piece of leather sewn between the fingers on some kinds of gloves. Also known as the sidewall or fourchette.
